Disclosure of Expenses (Unaudited)

Shareholders of this Fund incur ongoing costs, consisting of management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs of investing in the Fund and to compare these costs with similar costs of investing in other mutual funds. If shares are redeemed within 90 days of purchase from the Fund, the shares are subject to a 2% redemption fee. Additionally, IRA accounts will be charged an \$8.00 annual maintenance fee. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from April 1, 2023, to September 30, 2023.

The first line of the table below provides information about actual account values and actual expenses. In order to estimate the expenses a shareholder paid during the period covered by this report, shareholders can divide their account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6) and then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses paid by a shareholder for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare the 5% hypothetical example with the 5% hypothetical examples that appear in other funds' shareholder reports.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as redemption fees or IRA maintenance fees described above and expenses of the underlying funds. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative cost of owning different funds. In addition, if these transactional costs and expenses of underlying funds were included, your cost could have been higher.

	Beginning Account Value <u>April 1, 2023</u>	Ending Account Value <u>September 30, 2023</u>	Expenses Paid During the Period* April 1, 2023 to <u>September 30, 2023</u>
Actual	\$1,000	\$1,123.28	\$10.35
Hypothetical (5% annual return before expenses)	\$1,000	\$1,015.29	\$9.82

* Expenses are equal to the Fund's annualized expense ratio of 1.95%, multiplied by the average account value over the period, multiplied by 183/366 (to reflect the one-half year period).

NOTES TO FINANCIAL STATEMENTS - WIRELESS FUND

September 30, 2023

(Unaudited)

1.) ORGANIZATION

Wireless Fund (the "Fund") is a non-diversified series of the PFS Funds (the "Trust"), an open-end investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. Prior to March 5, 2010, the Trust was named Wireless Fund. The Trust was organized in Massachusetts as a business trust on January 13, 2000, and may offer shares of beneficial interest in a number of separate series; each series representing a distinct fund with its own investment objectives and policies. The Fund, under normal market conditions, invests at least 80% of its assets in the securities of companies engaged in the development, production, or distribution of wireless related products or services. As of September 30, 2023, there were thirteen series operating in the Trust. The Fund's primary investment objective is to seek long-term growth of capital.

2.) SIGNIFICANT ACCOUNTING POLICIES

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 *Financial Services - Investment Companies*. The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund follows the significant accounting policies described in this section.

SECURITY VALUATION

All investments in securities are recorded at their estimated fair value, as described in Note 3.

SHARE VALUATION

The net asset value per share (the "NAV") is generally calculated as of the close of trading on the New York Stock Exchange (the "Exchange") (normally 4:00 p.m. Eastern time) every day the Exchange is open. The NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The offering price and redemption price per share is equal to the net asset value per share, except that shares of the Fund are subject to a redemption fee of 2% if redeemed within 90 days of purchase or less. During the six month period ended September 30, 2023, proceeds from redemption fees were \$429.

DISTRIBUTIONS TO SHAREHOLDERS

Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes. Where such differences are permanent in nature, they are reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations, or net asset values per share of the Fund.

FEDERAL INCOME TAXES

The Fund's policy is to continue to comply with the requirements of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required. It is the Fund's policy to distribute annually, prior to the end of the calendar year, dividends sufficient to satisfy excise tax requirements of the Internal Revenue Code. This Internal Revenue Code requirement may cause an excess of distributions over the book year-end accumulated income. In addition, it is the Fund's policy to distribute annually, after the end of the fiscal year, any remaining net investment income and net realized capital gains.

The Fund recognizes the tax benefits of certain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits

Notes to Financial Statements (Unaudited) - continued

should be recorded related to uncertain tax positions taken on returns filed for open tax years. The Fund identifies its major tax jurisdictions as U.S. Federal and State tax authorities; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the six month period ended September 30, 2023, the Fund did not incur any interest or penalties.

USE OF ESTIMATES

The financial statements are prepared in accordance with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

OTHER

The Fund records security transactions based on a trade date. Dividend income is recognized on the ex-dividend date, and interest income, if any, is recognized on an accrual basis. The Fund uses the specific identification method in computing gain or loss on the sale of investment securities. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

The Fund may invest in real estate investment trusts ("REITs") that pay distributions to their shareholders based on available funds from operations. It is common for these distributions to exceed the REITs taxable earnings and profits resulting in the excess portion of such distribution to be designated as return of capital. Distributions received from REITs are generally recorded as dividend income and, if necessary, are reclassified annually in accordance with tax information provided by the underlying REITs.

EXPENSES

Expenses incurred by the Trust that do not relate to a specific fund of the Trust are allocated to the individual funds based on each fund's relative net assets or another appropriate basis.

3.) SECURITIES VALUATIONS

The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Observable inputs other than quoted prices in active markets included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 - Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair

Notes to Financial Statements (Unaudited) - continued

value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

VALUATION OF FUND ASSETS

A description of the valuation techniques applied to the Fund's major categories of assets measured at fair value on a recurring basis follows.

Equity securities (common stocks, including ADRs). Equity securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Valuation Designee believes such prices accurately reflect the fair value of such securities. Securities that are traded on any stock exchange or on the NASDAQ over-the-counter market are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an equity security is generally valued by the pricing service at its last bid price. Generally, if the security is traded in an active market and is valued at the last sale price, the security is categorized as a level 1 security, and if an equity security is valued by the pricing service at its last bid price, it is generally categorized as a level 2 security. When market quotations are not readily available, when the Valuation Designee determines that the market quotation or the price provided by the pricing service does not accurately reflect the current fair value, or when restricted securities are being valued, such securities are valued as determined in good faith by the Valuation Committee, which includes the Valuation Designee, subject to review of the Board and are categorized in level 2 or level 3, when appropriate.

Money market funds. Shares of money market funds are valued at net asset value provided by the fund and are classified in level 1 of the fair value hierarchy.

In accordance with the Trust's good faith pricing guidelines, the Valuation Designee is required to consider all appropriate factors relevant to the value of securities for which it has determined other pricing sources are not available or reliable as described above. There is no single standard for determining fair value, since fair value depends upon the circumstances of each individual case. As a general principle, the current fair value of an issue of securities being valued by the Valuation Designee would appear to be the amount which the owner might reasonably expect to receive for them upon their current sale. Methods which are in accordance with this principle may, for example, be based on (i) a multiple of earnings; (ii) a discount from market of a similar freely traded security (including a derivative security or a basket of securities traded on other markets, exchanges or among dealers); or (iii) yield to maturity with respect to debt issues, or a combination of these and other methods. The Board maintains responsibilities for the fair value determinations under Rule 2a-5 under the Investment Company Act of 1940 and oversees the Valuation Designee.

The following table summarizes the inputs used to value the Fund's assets measured at fair value as of September 30, 2023:

<u>Valuation Inputs of Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common Stocks	\$6,128,683	\$0	\$0	\$6,128,683

Total	\$6,243,695	\$0	\$0	\$6,243,695

Refer to the Fund's Schedule of Investments for a listing of securities by industry. The Fund did not hold any level 3 assets during the six month period ended September 30, 2023.

The Fund did not invest in any derivative instruments during the six month period ended September 30, 2023.

4.) INVESTMENT ADVISORY AGREEMENT

Value Trend Capital Management, LP (the "Adviser"), manages the investment portfolio of the Fund, subject to policies adopted by the Trust's Trustees. Under the Management Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the Fund. The Adviser also pays the salaries and fees of all officers and trustees of the Trust who are also officers, partners, or employees of the Adviser. The Adviser pays all operating expenses of the Fund, with the exception of taxes, borrowing expenses (such as (a) interest

Notes to Financial Statements (Unaudited) - continued

and (b) dividend expenses on securities sold short), brokerage commissions and extraordinary expenses and any indirect expenses, such as expenses incurred by other investment companies in which the Fund invests. For its services, the Adviser receives a fee of 1.95% per year of the average daily net assets of the Fund. As a result of the above calculation, for the six month period ended September 30, 2023, the Adviser received management fees totaling \$59,369. At September 30, 2023, the Fund owed \$10,290 to the Adviser.

5.) RELATED PARTY TRANSACTIONS

Certain officers and a Trustee of the Trust are also officers of Premier Fund Solutions (the "Administrator"). Additionally, a control person of the Adviser serves as a trustee and officer of the Trust. That individual receives benefits from the Adviser resulting from management fees paid to the Adviser of the Fund.

For the six month period ended September 30, 2023, the Trustees who are not interested persons of the Fund received a total of \$3,000, plus travel expenses from the Adviser of the Fund. Under the Management Agreement, the Adviser pays these fees.

6.) PURCHASES AND SALES OF SECURITIES

For the six month period ended September 30, 2023, purchases and sales of investment securities other than U.S. Government obligations and short-term investments aggregated \$233,378 and \$11,545, respectively. Purchases and sales of U.S. Government obligations aggregated \$0 and \$0, respectively.

7.) TAX MATTERS

For federal income tax purposes, the cost of investments owned at September 30, 2023, was \$3,697,879. At September 30, 2023, the composition of unrealized appreciation (the excess of value over tax cost) and depreciation (the excess of tax cost over value) on a tax basis was as follows:

<u>Appreciation</u>	<u>(Depreciation)</u>	<u>Net Appreciation (Depreciation)</u>
\$2,852,121	(\$306,305)	\$2,545,816

The tax character of distributions was as follows:

	<u>Six months ended September 30, 2023</u>	<u>Year ended March 31, 2023</u>
Ordinary Income:	\$ 0	\$ —
Long-term Capital Gain:	<u>0</u>	<u>289,211</u>
	<u>\$ 0</u>	<u>\$ 289,211</u>

8.) CONCENTRATION OF SECTOR RISK

If a Fund has significant investments in the securities of issuers in industries within a particular sector, any development affecting that sector will have a greater impact on the value of the net assets of the Fund than would be the case if the Fund did not have significant investments in that sector. In addition, this may increase the risk of loss of an investment in the Fund and increase the volatility of the Fund's NAV per share. From time to time, circumstances may affect a particular sector and the companies within such sector. For instance, economic or market factors, regulation or deregulation, and technological or other developments may negatively impact all companies in a particular sector and therefore the value of a Fund's portfolio will be adversely affected. As of September 30, 2023, the Fund had 30.55% of the value of its net assets invested in stocks within the Semiconductors & Related Devices sector.

9.) SUBSEQUENT EVENTS

(UNAUDITED)

1.) AVAILABILITY OF QUARTERLY SCHEDULE OF INVESTMENTS

The Fund publicly files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form NPORT. The Fund's Forms N-PORT are available on the SEC's website at <http://www.sec.gov>.

2.) PROXY VOTING GUIDELINES

Value Trend Capital Management, LP, the Fund's Adviser, is responsible for exercising the voting rights associated with the securities held by the Fund. A description of the policies and procedures used by the Adviser in fulfilling this responsibility is available without charge on the Fund's website at www.wireless-fund.com. It is also included in the Fund's Statement of Additional Information, which is available on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Form N-PX provides information regarding how the Fund voted proxies with regards to portfolio securities held during the most recent 12-month period ended June 30th and is available without charge, upon request, by calling 1-800-590-0898. This information is also available on the SEC's website at <http://www.sec.gov>.

3.) LIQUIDITY RISK MANAGEMENT PROGRAM

During the six month period ended September 30, 2023, the Board reviewed the Fund's liquidity risk management program, adopted pursuant to Rule 22e-4 under the Investment Company Act. The program is overseen by the Adviser, who has delegated certain responsibilities for managing the program to a liquidity program administrator (the "LPA"). The LPA reported that it had assessed, managed and reviewed the program for the Fund taking into consideration several factors including the liquidity of the Fund's portfolio investments and the market, trading or investment specific considerations that may reasonably affect a security's classification as a liquid investment. The LPA certified that the program was adequate, effectively implemented and needed no changes at that time.
